

want a good reason to switch to clariti® 1 day? how about four?

We really like these contact lenses. **You will, too:**

- 1 Convenient** – just pop in a **fresh** pair each day and go
- 2 More oxygen** – for a **healthy** lens wearing experience¹
- 3 Everyday value²** – the healthiest material³ in a 1-day lens that won't break the bank
- 4 The first** net plastic neutral⁴ contact lens

What's net plastic neutrality?

For every clariti® 1 day contact lens sold in the US, CooperVision®, the makers of clariti® 1 day, has partnered with Plastic Bank® to collect and convert an equal amount of ocean-bound plastic through their global network.

So simply by wearing clariti® 1 day, you can feel good knowing you're making a positive environmental impact.

Great, right? Let's talk more about clariti® 1 day at your next appointment.

1. With high oxygen delivery for daily wear, SiHy materials minimize or eliminate hypoxia-related complications

2. CVI data on file 2020. prospective, double masked, bilateral, randomized cross-over dispensing 1-week study, with clariti® 1 day and 1-DAY ACUVUE® MOIST in FRP SiHy wearers. N=55; p<0.01.

3. Orsborn G, Dumbleton K. Eye Care Professionals' Perceptions of the Benefits of Daily Disposable Silicone Hydrogel Contact Lenses, Contact Lens and Anterior Eye; 42 (2019) 4:373-379. CVI data on file 2018. Survey results of ECPs in US, UK and Japan, n=300.

4. CVI data on file 2020. Sustainability report, clariti® 1 day in U.S.. Based on top 4 global contact lens manufacturers.

Warning: Do not expose contact lenses to water while wearing them.
