

Feel great about wearing Net Plastic Neutral contact lenses.

Did you know we prescribe **net plastic neutral[†]** contact lenses so you can correct your vision responsibly?

That means for every box of net plastic neutral contact lenses you buy, Plastic Bank[®] collects and converts an equal amount[†] of plastic through their global network, to help reduce ocean-bound plastic.

Schedule your eye exam today
to try a net plastic neutral[†] contact lens.

[†] Amount is defined as weight. Net plastic neutrality is established by purchasing credits from Plastic Bank. A credit represents the collection and conversion of one kilogram of plastic that may reach or be destined for waterways. CooperVision purchases credits equal to the weight of plastic in clariti 1 day, MyDay daily disposable, MiSight 1 day and Biofinity orders in a specified time period. clariti 1 day, MyDay daily disposable, MiSight 1 day and Biofinity plastic is determined by the weight of plastic in the blister, the lens, and the secondary package, including laminates, adhesives, and auxiliary inputs (e.g. ink).
