with clariti® 1 day contact lenses

Congratulations! We hope you're enjoying the ease and comfort of clariti® 1 day contact lenses. We know you're still getting adjusted to the new routine, so here's a reminder video with some basics to get started with your new lenses.

For more detailed instructions or tips on lens care, visit the CooperVision's webpage dedicated to [New Wearers](#).

Don't worry if you don't get it right on the first few tries. But eventually, it'll feel second nature, like any of your other daily routines.¹

When in doubt, reach out to our office with any questions or concerns.

¹ Observational satisfaction survey involving 1718 patients (new lens wearers n=1091, refitted lens wearers n=627) who were fitted with clariti® 1 day]; 87%, top 2 boxes -ease of handling very good or good.
