

CooperVision Renews Its Support of U.S. Military Personnel

Date:

Monday, November 12, 2012

Pleasanton, CA — CooperVision, Inc. (NYSE: COO) plans to launch a new website in partnership with the Armed Forces Optometric Society (AFOS), reinforcing the global contact lens manufacturer's commitment to serving the U.S. military community. With this new website, military personnel and their families can learn more about CooperVision's extensive product portfolio, purchase CooperVision's contact lenses affordably, and be assured guaranteed delivery wherever they are located around the world.

"As a former member of the U.S. Armed Services, I understand and appreciate the unique demands placed on our military personnel and their families", John Weber, president, CooperVision said. "It is important we support our service members and their families. This new CooperVision website will make it easier and more affordable for military patients to experience the performance and value of CooperVision's lenses. CooperVision is honored to be a strategic partner in this exciting initiative."

In addition, CooperVision plans to offer patients the option to support the Wounded Warrior Project® (WWP) by donating \$1 per carton for each purchase of CooperVision contact lenses. The Wounded Warrior Project® (WWP) takes a holistic approach when serving the military community and their families to nurture the mind and body, and encourage economic empowerment and engagement.

"The Armed Forces Optometric Society's primary mission is to serve our nation's military personnel and veterans," expressed AFOS executive director Dr. Anthony Borgognoni. "Since we have the highest vision standards in the world, we are dedicated to preserving vision and eradicating blindness. This opportunity with CooperVision serves our military community in pursuing these goals."

AFOS was created in 1970 to advance the science of eye care throughout the world. Today the society has more than 1,200 military and federal doctors of optometry across the country and internationally. AFOS has the largest group of Vision Scientists worldwide, and strives to elevate the standards of eye care for the benefit of men, women and children everywhere.
