

The same optic design features you already know in your **Biofinity® toric** contact lenses are available in a convenient 1-day lens with **MyDay® toric!**

The features you'll love:

- The same great design in your Biofinity® toric lenses, **Optimized Toric Lens Geometry™** for a stable fit for consistently clear vision.
- The same advanced material design found in Biofinity® toric, **Aquaform® Technology**, locks in water—so you can have incredible comfort all day long.
- **UV blocker** helps protect your eyes against the transmission of ultraviolet rays, helping support your eye health.†
- **Net plastic neutral**,^{1,2,3} so you can wear contact lenses that are helping you do one better for your vision and the planet.
- **Convenient daily disposable** with no cleaning required or solution costs, so you're always good to go.

Ready to try MyDay® toric?
Bring this [e-coupon](#) to your ECP for a free trial.

† Warning: UV-absorbing contact lenses are not substitutes for protective UV-absorbing eyewear, such as UV-absorbing goggles or sunglasses, because they do not completely cover the eye and surrounding area. Patients should continue to use UV-absorbing eyewear as directed.

1 MyDay® daily disposable orders includes MyDay® daily disposable, MyDay® daily disposable toric, and MyDay® daily disposable multifocal products sold and distributed by CooperVision in the US.

2 Net plastic neutrality is established by purchasing credits from Plastic Bank. A credit represents the collection and conversion of one kilogram of plastic that may reach or be destined for waterways. CooperVision purchases credits equal to the weight of plastic in MyDay® daily disposable orders in a specified time period. MyDay® daily disposable plastic is determined by the weight of plastic in the blister, the lens, and the secondary package, including laminates, adhesives, and auxiliary inputs (e.g. ink).
