clariti® 1 day family

The health advantages of silicone hydrogel 1 day contact lenses have never looked so good

- High oxygen transmissibility
- High water content
- Low modulus
- Affordable
- UV protection

clariti® 1 day

Convenience and comfort in a daily disposable the safest contact lens modality

- Allows for 100% corneal oxygen consumption\(^1\)
- Provides more than the recommended amount of oxygen\(^2\) across the entire lens surface to help maintain ocular health

clariti® 1 day toric

Comfort and consistent visual experience for your astigmatic patients

- Aspheric back surface and blended edge design
- Aspheric front optic zone
- Prism-free periphery
- Constant edge thickness
- Location mark at 6 o’clock

clariti® 1 day multifocal

Excellent all-day comfort and vision performance

**Simultaneous Vision**

- Center near
- Peripheral distance
- Smooth progression of intermediate vision

**Two ADD System**

- Low ADD profile for early/moderate presbyopes
- High ADD profile for mature presbyopes

Now you can prescribe the ocular health advantages of silicone hydrogel plus all-day comfort and convenience in a daily disposable lens, for virtually every patient, every prescription, and every eye with the clariti® 1 day family from CooperVision.

All eyes deserve clariti®
