

We're looking after you!

We are now open and we want you to know we are taking safety precautions to ensure you and our staff are protected in the office, including additional protocols related to contact lenses:

- We follow federal, state and local guidelines and we will include wearing a mask, washing hands before and after working with you, using gloves and wearing a face shield.
- We are wiping down all surfaces with an approved disinfectant.
- If you're coming in for a contact lens fitting, please watch this video before arrival to help you learn about applying and removing your contact lenses.
