

MyDay Energys[®]

Extraordinary comfort
designed for today's world.¹

Our world has changed. But have your contact lenses? Now there's a contact lens designed to help you get more out of every day² – MyDay Energys[®]. MyDay Energys[®] offers a unique combination of features fit for the way you live today. They are the first and only 1-day contact lenses combining an innovative aspheric design and material lens technology to help tiredness and dryness associated with digital eye strain. In fact, 8 out of 10 patients agree: MyDay Energys[®] made their eyes feel less tired, relaxed, and made their vision stay clear and focused throughout the day even with lots of digital device use.^{1,3}

The features you'll love

- DigitalBoost[™]: An innovative single vision aspheric lens design that delivers a digital boost, which helps reduce eye tiredness associated with digital eye strain.
- Aquaform[®] Technology: An advanced material technology that hydrates contact lenses to twice their weight in water⁴ for natural wettability and incredible comfort.⁵
- UV blocker*: Helps protect eyes against the transmission of UV rays, helping support eye health.
- Convenient daily replacement schedule with no cleaning required, so you're always good to go.

Ask your Eye Care Practitioner
if a free trial of MyDay Energys[®]
would be right for you.

Please note that free trial does not include eye exam or fitting fees.

* Warning: UV-blocking contact lenses help provide protection against transmission of harmful UV radiation to eye but are not substitutes for protective UV-absorbing eyewear, such as UV absorbing goggles or sunglasses, as they do not completely cover the eye or surrounding area. Continue to use UV-absorbing eyewear as directed by your eye care professional.
