Biofinity® toric multifocal
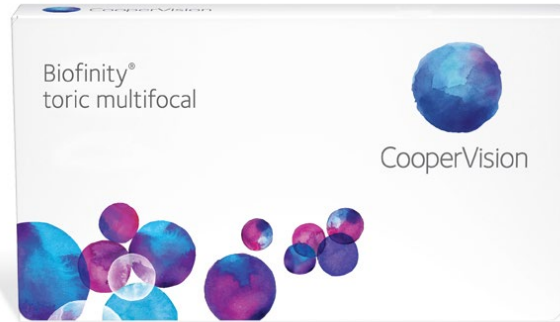

Delivering performance to contact lens wearers who are both astigmatic and presbyopic.

CooperVision®
Live Brightly.

You have astigmatism, but your vision has evolved and you now also face the challenge of presbyopia—a condition that can make up-close objects appear blurry. But your new vision challenges don't mean you have to settle for reading glasses.

CooperVision® Biofinity® toric multifocal contact lenses combine proven optical lens design technologies to keep your vision crisp and clear at every distance, every day. Like all Biofinity® family lenses, they provide 100% of the oxygen your eyes need* to help them stay healthy[1], and give your eyes incredible comfort throughout your busy days.

The features you'll love

- Optimized Toric Lens Geometry™ is a multifaceted design that will ensure you experience a stable fit and minimal lens movement.
- Balanced Progressive™ Technology provides multiple correction zones in each lens that are tailored to your personal prescription, to help you see clearly at all distances.
- Aquaform® Technology locks in water—so you can have incredible comfort all day long—and helps your eyes stay clear and white, by delivering the oxygen your eyes need.*
- All Biofinity contact lenses provide a remarkable balance of comfort, breathability and excellent visual performance.
- Made to order, with over 200,000 prescription options to fit your specific prescription needs.[2]

Ask your Eye Care Practitioner if a free trial of Biofinity® toric multifocal would be right for you.

Please note that free trial does not include eye exam or fitting fees.
