clariti® 1 day multifocal

CooperVision®
Live Brightly®

Great everyday value and high breathability[1] in the convenience of a daily disposable multifocal contact lens.

If you're ocular health-conscious and noticing changes in your near vision, such as less sharpness when you're reading close up, then look no further than CooperVision® clariti® 1 day multifocal contact lenses. These high-performing contact lenses at an everyday value will keep you feeling good about your wallet and your eyes.

With clariti 1 day multifocal, you can be confident that your eye health is supported because it has a built-in UV blocker* and it's made with a healthy lens material that delivers 100% of the oxygen your eyes need.†‡[1] While wearing clariti® 1 day multifocal contact lenses, you'll enjoy great vision[2] and a comfortable lens-wearing experience, all at a price that'll make you smile.

Ask your Eye Care Practitioner if a free trial of clariti® 1 day multifocal would be right for you.

Please note that free trial does not include eye exam or fitting fees.

Presbyopia

The features you'll love

- CooperVision® multifocal design offers great vision at all distances.[2]
- Soft silicone hydrogel lens material with high breathability helps keep your eyes healthy and white.‡[1]
- WetLoc® Technology and high water content help keep your contact lenses moist, supporting excellent all-day comfort**
- UV blocker helps protect your eyes against the transmission of ultraviolet rays, helping support your eye health.*

* Warning: UV-absorbing contact lenses are not substitutes for protective UV-absorbing eyewear, such as UV-absorbing goggles or sunglasses, because they do not completely cover the eye and surrounding area. Patients should continue to use UV-absorbing eyewear as directed.

** Manufacturer's quoted core water content.

† During daily wear.

‡ With higher oxygen permeability than hydrogel materials, silicone hydrogel contact lenses minimize or eliminate hypoxia-related signs and symptoms during lens wear.
