

Proclear® multifocal toric

CooperVision®
Live Brightly.™

Helps provide all-day comfort for multifocal contact lens wearers with astigmatism who experience dry eyes related to lens wear.

If you are a multifocal contact lens wearer with astigmatism who is experiencing dry eyes and irritation related to lens wear, CooperVision® Proclear® multifocal toric contact lenses may help. They're made with PC Technology™ which was specially created for contact lens wearers like you; it binds water to your lenses, helping them remain fresh and comfortable all day long. Focus on life and not on your contact lenses with Proclear®.

The features you'll love

- Balanced Progressive® Technology provides multiple correction zones in each lens that are tailored to your personal prescription, so you can see clearly at all distances.
- Made by CooperVision, a world leader in toric contact lenses, the Proclear toric design provides on-eye stability, comfort and vision performance.
- PC Technology binds water throughout each Proclear contact lens, creating a shield around it, keeping the lens clean. Contact lenses stay hydrated, helping them feel moist and comfortable throughout the day.
- The Proclear lens material helps you avoid eye irritation by resisting deposit build-up over the course of your day.
