

# Proclear<sup>®</sup> toric

Helps provide all-day comfort for contact lens wearers with astigmatism who experience dry eyes due to lens wear.

CooperVision<sup>®</sup>  
Live Brightly.<sup>®</sup>

If you wear contact lenses to correct your astigmatism and you experience eye dryness and irritation during lens wear, CooperVision<sup>®</sup> Proclear<sup>®</sup> toric contact lenses may help. They're made with PC Technology<sup>™</sup> which was specially created for contact lens wearers like you; it binds water to your lenses, helping them remain fresh and comfortable all day long. Focus on life and not on your contact lenses with Proclear<sup>®</sup>.

 Astigmatism

## The features you'll love

- Made by CooperVision, a world leader in toric contact lenses, the Proclear toric design provides on-eye stability, comfort and vision performance.
- PC Technology binds water throughout each Proclear contact lens, creating a shield around it, keeping the lens clean. Contact lenses stay hydrated, helping them feel moist and comfortable throughout the day.
- The Proclear lens material helps you avoid eye irritation by resisting deposit build-up over the course of your day.
